

John C. Gagliardi

Education: BSME – 1980, MSME - 1982, and PhD - 1987 – Marquette University

42 Graduate level semester hours in acoustics since PhD,

24 semester hours from Penn State University

Remainder split among Purdue University, University of Minnesota
and University of Michigan

Technical Member - Acoustical Society of America

Activities: Member - North Carolina Chapter - Chair 2009-11

Member – Institute of Noise Control Engineering

Member – Society of Automotive Engineers

Member – ASTM International

John was Technical Director for Technicon Acoustics from 2002 to 2016. Technicon Acoustics is a manufacturer of acoustical materials and an ISO 17025 accredited acoustical testing laboratory. At Technicon, John led the acoustic material product development and operation of the acoustical laboratory.

John has also gained a strong foundation as an acoustical consultant, research investigator, and testing laboratory operator while at Orfield Laboratories from 1998-2002. He has extensive experience in laboratory testing of materials and a wide variety of acoustical consulting projects, including product development and teaching a course in architectural acoustics at the University of Minnesota.

John has published papers in the Applied Acoustics Journal, the Journal of Engineering Mathematics, and proceedings of Noise-Con and Inter-Noise, and the SAE Noise and Vibration Conferences.
